# Northern Technologies International Corporation Reports Record Sales for Fiscal 2012

MINNEAPOLIS, Nov. 20, 2012 (GLOBE NEWSWIRE) -- Northern Technologies International Corporation (Nasdaq:NTIC) today reported its financial results for fiscal 2012. Highlights of NTIC's financial and operating results include:

- NTIC's consolidated net sales increased 16.7% during the fiscal 2012 compared to fiscal 2011. This increase was
  primarily a result of increased sales made by Zerust Brazil and increased sales of Natur-Tec<sup>®</sup> products and ZERUST<sup>®</sup>
  rust and corrosion inhibiting packaging products and services.
- Net sales of Natur-Tec<sup>®</sup> products increased 84.0% during fiscal 2012 compared to fiscal 2011.
- NTIC's consolidated net sales for fiscal 2012 included \$4,543,982 of sales made by Zerust Brazil, and of those sales, \$2,466,000 in sales were made to the oil and gas industry sector in Brazil.
- During fiscal 2010, Zerust Brazil received a Phase 1 contract for an initial implementation of \$1.4 million (BRL\$ 2.5 million) in ZERUST<sup>®</sup> products which was delivered in fiscal 2010 and fiscal 2011. During fiscal 2011, Zerust Brazil signed a Phase 2 contract with Petroleo Brasileiro S.A. (Petrobras) to supply \$2.4 million (BRL\$ 4.21 million) in ZERUST® products. During fiscal 2012, Petrobras expanded this Phase 2 contract to supply an additional \$657,000 (BRL\$ 1.15 million) in ZERUST® products, bringing the total Phase 2 contract value to \$3.1 million (BRL\$ 5.36 million) in ZERUST® products. During early fiscal 2013, Zerust Brazil signed a Phase 3 contract with Petrobras to supply \$3.7 million (BRL\$ 7.5 million) in ZERUST® products.
- Income provided by NTIC's joint venture operations decreased 13.1% or \$1,523,515 to \$10,142,707 for fiscal 2012, compared to \$11,666,222 for the same respective prior fiscal year periods. These decreases were due in part to a 6.2% decrease in total net sales of NTIC's joint ventures to \$111,830,961 during fiscal 2012 compared to \$119,276,553 for fiscal 2011 and a \$452,500 loss associated with the disposal of the Polymer Energy facility in India.
- Net income attributable to NTIC decreased 11.6% to \$3,448,196, or \$0.78 per diluted common share, for fiscal 2012 compared to \$3,900,120, or \$0.89 per diluted common share, for fiscal 2011.

"The March 2012 delivery of over \$3 million in ZERUST<sup>®</sup> products to Petrobras represented the single largest delivery to a customer in NTIC's history, and given the \$3.7 million Phase 3 contract entered into in October 2013 we are confident of the expansion of ZERUST<sup>®</sup> technologies at Petrobras in the future. Furthermore, in addition to this continued success in Brazil, after winning two technology innovation awards from NACE, we are seeing increased interest in our storage tank protection and long-term preservation solutions in the United States. At the same time, we are pleased with the healthy sales growth of ZERUST<sup>®</sup> products in North America during fiscal 2012 compared to fiscal 2011. Strong sales and earnings growth of industrial ZERUST<sup>®</sup> products from other regions, however, have eluded us as the ongoing sovereign debt crises in various European countries have adversely affected the European economies and the value of the EURO and the currency values of other key supplier countries like China and India. We are being exceptionally cautious as we watch for firm signs of industrial recovery in Europe and worldwide." said G. Patrick Lynch, President and Chief Executive Officer of NTIC.

During fiscal 2012, 92% of NTIC's consolidated net sales were derived from sales of ZERUST<sup>®</sup> products and services, which increased 13.1% to \$20,971,275 during fiscal 2012 compared to \$18,542,523 during fiscal 2011 due to increased demand from existing customers and the addition of new customers.

7.9% of NTIC's consolidated net sales were derived from sales of Natur-Tec<sup>®</sup> products compared to 5.0% during fiscal 2011. Net sales of Natur-Tec<sup>®</sup> products increased 84.0% during fiscal 2012 compared to fiscal 2011. This increase was due to increased sales to Natur-Tec<sup>®</sup> distributors in the United States.

"We have continued to see tremendous opportunities for finished bioplastic products and have continued to strengthen and expand our North American distribution network for finished Natur-Tec® bioplastic products. At the same time, an iconic U.S. brand has continued to expand the implementation of Natur-Tec® bioplastic packaging across more segments of their supply

chain as they source finished products from India and other countries in south Asia. Furthermore, while the Italian government has delayed the broader enforcement of its ban on non-biodegradable plastic supermarket bags until the end of 2012, based upon recent market feedback and the receipt of an initial volume order, we remain optimistic about this region and still expect sales to this region to increase starting in second quarter of fiscal 2013," said G. Patrick Lynch, President and Chief Executive Officer of NTIC.

NTIC's equity in income of joint ventures decreased 0.3% to \$5,519,795 during fiscal 2012 compared to \$5,536,243 during fiscal 2011. During fiscal 2012, the shareholders of NTIC's joint venture in India, Harita NTI Limited, waived past due fees for services from both fiscal 2011 and fiscal 2012 in the aggregate amount of \$985,204. Since the waiver of fees was taken by all shareholders mutually, such action did not directly impact the earnings of either NTIC or HNTI. However, as a result of such action, NTIC recognized a reversal of fees for services provided to joint ventures of \$492,602 and a corresponding increase in equity in income of joint ventures during fiscal 2012. The primary purpose of the waiver of fees was to strengthen HNTI's working capital going forward. In addition, in fiscal 2012, HNTI experienced write downs of an aggregate of \$905,000 related to the write down to market value of a Polymer Energy unit that HNTI was previously attempting to sell. As a result, during fiscal 2012, NTIC absorbed 50% of this loss and, accordingly, recognized a decrease in equity in income of \$452,500 during fiscal 2012.

NTIC recognized a 24.6% decrease in fees for services provided to joint ventures during fiscal 2012 compared to fiscal 2011. This decrease was primarily a result of the waiver of fees by the shareholders of HNTI as described previously and a 6.2% decrease in total net sales of NTIC's joint ventures to \$111,830,961 during fiscal 2012 compared to \$119,276,553 for fiscal 2011. Total net sales of NTIC's joint ventures were adversely affected in part by the European sovereign debt crises, which NTIC believes adversely affected the net sales of NTIC's European joint ventures as well as certain of NTIC's other non-European joint ventures, and the weakening of the EURO and other currencies compared to the U.S. dollar.

NTIC's total operating expenses increased slightly 0.2% or \$27,134 to \$13,825,806 during fiscal 2012 compared to \$13,798,672 for fiscal 2011 primarily as a result of an increase in selling expenses, general and administrative expenses and expenses incurred in support of joint ventures, partially offset by decreases in research and development expenses, and reflected NTIC's efforts to hold expenses stable given the uncertainties in the global economy.

NTIC expenses all costs related to product research and development as incurred. NTIC incurred \$3,875,581 and \$4,364,109 of expense during fiscal 2012 and 2011, respectively, in connection with its research and development activities. These represent net amounts after being reduced by reimbursements related to certain research and development contracts. Such reimbursements totaled \$365,940 and \$219,175 for fiscal 2012 and fiscal 2011, respectively. NTIC anticipates that it will spend between \$3,500,000 and \$3,800,000 in total during fiscal 2013 on research and development activities related to its new technologies. This estimate is a net range after being reduced by anticipated reimbursements related to certain research and development contracts.

Net income attributable to NTIC decreased 11.6% to \$3,448,196, or \$0.78 per diluted common share, for fiscal 2012 compared to \$3,900,120, or \$0.89 per diluted common share, for fiscal 2011. This decrease was primarily the result of a decrease in income from NTIC's joint ventures, partially offset by increased sales and earnings of NTIC's North American businesses as well as an increase in sales and earnings of NTIC's subsidiary in Brazil . NTIC anticipates that its quarterly net income will remain subject to significant volatility primarily due to the financial performance of its joint ventures and sales of its ZERUST<sup>®</sup> products and services into the oil and gas industry and Natur-Tec<sup>®</sup> bioplastics products, which sales fluctuate more on a quarterly basis than the traditional ZERUST<sup>®</sup> business

NTIC's working capital was \$10,546,163 as of August 31, 2012, including \$4,137,547 in cash and cash equivalents compared to \$9,085,748 as of August 31, 2011, including \$3,266,362 in cash and cash equivalents. With respect to NTIC's joint venture operations, dividends received from joint ventures are reflected in NTIC's cash flows from investing activities and not cash flows from operating activities. Accordingly, NTIC's cash flows from investing activities are typically positive while its cash flows from operating activities are typically negative. Of the \$1,351,468 of net cash provided by investing activities during fiscal 2012, \$3,060,545 was from dividends received from joint ventures.

#### Outlook

For the fiscal year ending August 31, 2013, NTIC expects its net sales to range between \$27.0 million and \$28 million, inclusive of sales made by NTIC's majority-owned subsidiary in Brazil, and expects net income of between \$4.4 million to \$4.7 million, or between \$1.00 and \$1.05 per diluted share.
