

## Northern Technologies International Corporation Joins Russell Microcap Index

MINNEAPOLIS, July 8 /PRNewswire-FirstCall/ -- Northern Technologies International Corporation [NTIC](#) today announced that it has been added to the Russell Microcap index after the Russell Investment Group reconstituted its set of equity indexes on June 27, 2008.

Membership in the Russell Microcap, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes.

According to Russell Investments, Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for both passive and active investment strategies. An industry-leading \$4.4 trillion in assets currently are benchmarked to them.

Matthew Wolsfeld, CFO of NTIC stated, "We are very pleased to be included in the Russell Microcap Index, which reflects our continued positive momentum and the opportunity to increase our visibility within the investment community."

### About Russell:

Russell Investments aims to improve financial security for people by providing strategic advice, world-class implementation, state-of-the-art performance benchmarks, and a range of institutional-quality investment products. With more than \$213 billion in assets under management, Russell serves individual, institutional and advisor clients in more than 40 countries. Russell provides access to some of the world's best money managers. It helps investors put this access to work in corporate defined benefit and defined contribution plans, and in the life savings of individual investors.

Founded in 1936, Russell is a subsidiary of Northwestern Mutual Life Insurance Company. Headquartered in Tacoma, Wash., U.S., Russell has principal offices in Amsterdam, Auckland, Hong Kong, Johannesburg, London, Melbourne, New York, Paris, San Francisco, Singapore, Sydney, Tokyo and Toronto.

### About Northern Technologies International Corporation:

Northern Technologies International Corporation focuses on developing, marketing and selling proprietary environmentally responsible materials science based products and technical services directly and via a network of independent distributors, manufacturers' representatives and joint ventures in over 50 countries. NTI manufactures, markets and sells primarily rust and corrosion inhibiting products and services for automotive, electronics, electrical, mechanical and military applications, sold under the brand names Zerust® and EXCOR®. NTI also offers direct, worldwide on-site technical support on rust and corrosion issues. NTIC's technical service representatives work directly with the end users of NTIC's products to analyze their specific needs and develop systems to meet their technical requirements. In addition to Zerust products and services, NTIC's consolidated net sales in North America for the six months ended February 29, 2008 included sales of NTIC's Natur-Tec™ products, which are part of NTIC's new biodegradable and compostable plastics line. ### Forward-Looking Statements

Statements contained in this press release that are not historical information are forward-looking statements as defined within the Private Securities Litigation Reform Act of 1995. Such statements can be identified by words such as "expect," "anticipate," "continued," "estimate," "will," "would," or words of similar meaning and any other statements that are not historical facts. Such forward-looking statements are based upon the current beliefs and expectations of NTIC's management and are inherently subject to risks and uncertainties that could cause actual results to differ materially from those projected or implied. Such potential risks and uncertainties include, but are not limited to, in no particular order: the contraction of the U.S. automobile industry and its adverse effect on the demand for NTIC's Zerust products, the failure of NTI to realize any benefits, financial or otherwise, from its efforts to expand the application of its corrosion inhibiting technology into the oil and gas industry and its product line, the difficulties and risks associated with NTIC's international operations and its corporate joint ventures, and NTIC's reliance on its joint ventures for distributions and fees for technical services. More detailed information on these and additional factors which could affect NTIC's operating and financial results is described in the company's filings with the

Securities and Exchange Commission, including its most recent annual report on Form 10-KSB and subsequent quarterly reports on Form 10-QSB. NTI urges all interested parties to read these reports to gain a better understanding of the many business and other risks that the company faces. Additionally, NTI undertakes no obligation to publicly release the results of any revisions to these forward-looking statements, which may be made to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events.
