

Northern Technologies International Corporation to Present at the 7th Annual Spring Growth Stock Conference Hosted by Security Research Associates, Inc.

MINNEAPOLIS, May 5, 2011 (GLOBE NEWSWIRE) -- Northern Technologies International Corporation (Nasdaq:NTIC) today announced that Matthew Wolsfeld, Chief Financial Officer of NTIC, will be presenting at the 7th Annual Spring Growth Stock Conference hosted by Security Research Associates, Inc. The conference will be held on Tuesday, May 24th at the Omni Hotel in San Francisco.

Conference attendees will include a select group of institutional portfolio managers and analysts, and will feature CEOs and CFOs from some of the fastest growing companies in the technology sector.

Matthew Wolsfeld, NTIC's CFO commented, "I look forward to attending and presenting at the SRA conference in San Francisco. This conference will provide NTIC a great forum to introduce and educate institutional investors on the opportunities that NTIC has to grow its business."

About Northern Technologies International Corporation

Northern Technologies International Corporation develops and markets proprietary environmentally beneficial products and services in over 55 countries either directly or via a network of joint ventures, independent distributors and agents. NTIC's primary business is corrosion prevention marketed primarily under the ZERUST® brand. NTIC has been selling its proprietary ZERUST® rust and corrosion inhibiting products and services to the automotive, electronics, electrical, mechanical, military and retail consumer markets, for over 35 years. NTIC also offers worldwide on-site technical consulting for rust and corrosion prevention issues. NTIC's technical service consultants work directly with the end users of NTIC's products to analyze their specific needs and develop systems to meet their technical requirements. In addition, NTIC markets proprietary bio-plastic technologies under the Natur-Tec® brand. Finally, NTIC's Polymer Energy® joint venture manufactures and sells advance waste plastic to fuel conversion machines.
